

AHMAD BIN AJMAL

Game Developer | Software Engineer | Graphic Designer

+92320353718 | malikahmadajmal777@gmail.com | Muzaffarabad, Azad Kashmir, Pakistan

SUMMARY

Passionate and creative Game Developer with over 6 years of experience designing, developing, and optimizing interactive games using Unity. Skilled in C# programming, game mechanics, and immersive design, with a strong background in graphic design, video editing, and photo editing. Currently pursuing a Bachelor's degree in Software Engineering, combining academic knowledge with hands-on industry expertise. Adept at problem-solving, teamwork, and delivering engaging digital experiences.

EXPERIENCE

Freelance Game Developer | Self-employed | 2019 – Present

Delivered 50+ complete projects for international clients, covering 2D and 3D Unity games across various genres. Designed, prototyped, and developed core game mechanics with C# scripting and Unity tools. Focused on high-quality, optimized, and bug-free delivery, ensuring excellent user experiences. Collaborated with artists, designers, and clients to meet project goals within strict deadlines. Integrated UI/UX, animations, and multimedia assets to create polished final products.

Game Developer – Flux Craft Studio | 2020 – 2021

Worked as a core Unity Developer, contributing to multiple commercial game titles. Implemented gameplay systems, player controls, and AI logic with C#. Optimized project performance across mobile and PC platforms. Partnered with cross-functional teams to deliver engaging, scalable, and high-performing games. Gained experience in working within a structured studio environment while maintaining creativity.

Unity Game Developer – OOBT Solutions | Project-based | December 2025

Developed Unity games for Android/iOS, implementing gameplay mechanics, controls, UI, testing, and Google AdMob integration. Optimized performance, fixed bugs, provided progress updates, and delivered the final APK/build and complete Unity project files.

iOS Game Developer – Game Development Studio | 2026

Developed 20+ iOS games for a game development studio and prepared them for App Store release. Worked on gameplay systems, UI, optimization, testing, bug fixing, and final builds to ensure smooth performance and successful publishing on the Apple App Store.
